INSTRUCTION AND  
COMPOSITION

Included in every order

# HOW TO PREPARE PRINTFILES

## FILE FORMAT

Please submit your files in JPG, PNG or PSD format.

## FONTS

All fonts in the print files should be converted to outlines so you don't have to send over the font files.

## COLOR

All colors should be in RGB.

## PLACEMENT

Exact placement is not possible. Our T-shirts are cut and sewn and are best when designed with patterns and full bleed images. Text placement will not be precise. Making a seamless image in the front or back is impossible.

## Adobe Photoshop

1 OPEN The Printful templates for this product or CREATE new documents

2 Create or copy / paste graphics within maximum graphic size area.

Pay attention to graphics resolution.

3 SAVE

1. Turn off the guides by using the eye icon tool
2. Choose File - Save As and Rename your file
3. Save as .jpeg

## Adobe Illustrator

1 CREATE 2 new document sized to Width: 20" x Height: 5"

- Make sure Raster effects are set to 150dpi or higher
- Make sure the color space is set to sRGB

2 PLACE raster graphics or create / copy & paste vector

Pay attention to graphics resolution (see requirements above).

3 EMBED raster graphics

4 EXPORT

1. Choose "File" - "Export"
2. Rename your file
3. Choose either .png or .jpeg as the file format
4. Click the "Use Artboards" checkbox
5. Click "Export"
6. Make sure your resolution is 150dpi or higher
7. Make sure the color space is set to sRGB
8. Click "OK" to save file

So much more than printing
